1. Qualitative Information on Quarterly Financial Results

(1) Explanation of Operating Results

During the three months ended May 20, 2024 (February 21, 2024 - May 20, 2024), the environment surrounding OKUWA Co., Ltd. (the "Company") is becoming one in which economic activities gradually returned to normal due to a further increase in wages caused by growing labor shortages and the effects of various measures such as ongoing improvements of employment and income situations. On the other hand, the outlook remained uncertain as shown by soaring resource prices caused by the prolonged situation in Ukraine and rising geopolitical risks in the Middle East and other regions, and decline in real wages and rise in energy costs due to the impact of higher prices, stemming from the rapid depreciation of the yen and other factors.

The retail industry, too, continues to struggle with the harsh environment, which is exemplified by an increasing trend to save money among consumers due to rapid inflation, fluctuations in raw material prices due to the imbalance between supply and demand and the hikes in market prices, higher costs caused by a rise in energy and labor costs, and the need for labor saving and productivity improvement.

Against this backdrop, the Company has decided the slogan for the fiscal year as "Let us turn small ideas into action and transform sales floors for the better by everyone's efforts." With each employee sharing the common goal of taking actions "toward a better store," we have worked to provide products and services that can meet changing lifestyles to respond to diversifying customer needs.

The Company also has started the new Medium-Term Management Plan ending in the fiscal year ending February 20, 2027. We have been working on the issues of "restructuring of business types," "improvement of store productivity," "expansion of product development for OKUWA brand," "formulation of marketing strategies," "achievement of cost reduction through business transformation," "maximization of the value of human capital," and "further promotion of sustainability management," etc.

With regard to our consolidated subsidiaries, OAK FOODS CO. LTD., which operates restaurants, saw a slight increase in sales and a decrease in profits due mainly to the impact of labor shortages and an increase in labor costs, although demand for restaurants has been recovering with the normalization of economic activities. SUNRISE., CO. LTD., which handles the processing and delivery of agricultural and other products, saw a slight increase in sales and a decrease in profits.

As a result, for the three months ended May 20, 2024, the Company and its consolidated subsidiaries (the "Group") posted operating income (net sales and operating revenue) of 58,697 million yen (up by 0.8% yearon-year). However, due in part to an increase in cost of sales, the Group posted operating loss of 38 million yen (operating profit of 6 million yen for the same period of the previous fiscal year), ordinary profit of 6 million yen (down by 90.6% year-on-year), and loss attributable to owners of parent of 56 million yen (loss attributable to owners of parent of 45 million yen for the same period of the previous fiscal year).

(2) Explanation of Financial Position

Total assets at the end of the first quarter of the fiscal year under review decreased by 1,476 million yen from the end of the previous fiscal year to 131,019 million yen. Current assets decreased by 3,112 million yen, primarily due to a decrease of 4,039 million yen in cash and deposits, despite an increase of 433 million yen in merchandise and finished goods and an increase of 371 million yen in notes and accounts receivable - trade. Non-current assets increased by 1,635 million yen, primarily due to an increase of 1,461 million yen in construction in progress included in other, net, under property, plant and equipment and an increase of 989 million yen in buildings and structures, net.

Liabilities decreased by 481 million yen from the end of the previous fiscal year to 53,334 million yen. Current liabilities increased by 475 million yen, primarily due to an increase of 600 million yen in notes and accounts payable - trade and an increase of 576 million yen in accrued expenses included in other under current liabilities, despite a decrease of 363 million yen in accounts payable - other and a decrease of 313 million yen in income taxes payable, both included in other under current liabilities. Non-current liabilities decreased by 956 million yen, primarily due to a decrease of 890 million yen in long-term borrowings.

Net assets decreased by 995 million yen from the end of the previous fiscal year to 77,684 million yen. This was primarily due to a decrease of 627 million yen in retained earnings and a decrease of 557 million yen due to an increase of treasury shares, despite an increase of 182 million yen in valuation difference on available-for-sale securities.

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-looking Information

Given the operating results for the three months ended May 20, 2024 and other factors, the Company has not revised its earlier consolidated financial results forecast for the fiscal year ending February 20, 2025, which

was announced on April 2, 2024.

 - (Notes in case of significant changes in shareholders' equity) There is no relevant information.

(Accounting methods adopted particularly for the preparation of quarterly consolidated financial statements) (Calculation of taxes)

Taxes are calculated by multiplying profit before income taxes for the three months ended May 20, 2024 by the reasonably estimated effective tax rate subsequent to the application of tax effect accounting to the profit before income taxes for the current fiscal year ending February 20, 2025, including the first quarter of the fiscal year under review. Should it be deemed to be significantly irrational to calculate taxes by the effective tax rate thus estimated, the normal effective statutory tax rate will be used for calculation.
